

## PIGGERY PROJECTS FOR RURAL COMMUNITIES

Ngaka Modiri Molema District Municipality ensures that its community are empowered by providing them with opportunities in a form of community projects that will be sustained by them.

The NMMDM has successfully established two agricultural related projects in Ramatlabama and Bethel villages. These established projects are piggery and chicken layers respectively:

**Ramatlabama Piggery Project:** The unit took it into their hands to resuscitate and refurbish and old Piggery structure at Tsetse village. It is located is on your way to Kgora Training Centre. The Tsetse tribal authority has identified six (6) beneficiaries for the said structure. The unit has procured (22) twenty two pigs, (10) ten sows, (10) ten piglets and (2) two boars. Renovations on the structure are in process with the intention to official launch the project by end October 2013.

**Bethel Chicken layer Project:** The project has kick started after consultation with the Bethel Tribal authority leaders; fourteen (14) beneficiaries have been identified for this project. The Tribal office has allocated a land to these beneficiaries were a near to be completed chicken layer structure has been erected, targeted date to complete this project is end October 2013.
